Update on the Alan Coulter Recreation Centre – Indoor Swimming Pool Roof Replacement

On 21 September 2018, Renmark Paringa Council issued a media release advising of the need to fully replace the roof structure of the Indoor Swimming Pool at the Alan Coulter Recreation Centre (ACRC).

Council staff have been working closely with a building draftsman and consulting engineers to develop plans for a new roof structure, ensuring the design allows for a smooth construction process that can be achieved as quickly as possible. The design work also makes allowances for dehumidification of the area to provide greater patron comfort and longevity of the new structure.

The plans for the roof replacement have now been completed and the tender process has commenced, closing 17 December 2018.

Council expects the tender to be awarded prior to Christmas 2018 and construction works to commence early in 2019.

Once the Tender has been awarded, Council will be in a position to notify the community of the expected construction timeframe and subsequent proposed re-opening date.

Please direct any enquiries to Tony Siviour, Chief Executive Officer on 8580 3000.
